        Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                 Score
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 seq length: 0

No. is the number of results predicted by chance to have a
score greater than or equal to the score of the result being printed,
and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                  Score

C;Comment: This lectin from legume seeds is a tetramer of noncovalently bound identical e carbohydrates galactose, glucosamine, mannose, and fucose. It agglutinates erythrocyte C;Comment: This fragment is related to the amino end of the lentil lectin beta chain. C;Comment: Dolichos axillaris (Macrotyloma axillare) is an African legume, also now grow C;Superfamily: plant lectin

  Pred. No. is the number of results predicted by chance to have a
score greater than or equal to the score of the result being printed,
and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          B 8
